INFORMATION

The International scientific
and practical online
conference

CONSOLIDATED APPROACH TO RESCUE FIREFIGHTER TRAINING

Republic of Belarus,
Minsk
30 September 2021

We invite researchers, lecturers, listeners, adjuncts (postgraduates, applicants), cadets (students) of educational and scientific institutions to participate in the conference.

PARTICIPATION REQUIREMENTS

To participate in the conference, you have to:

- Register and upload abstracts of the report on the university website in the section Science / Conferences by **September 17, 2021** (<http://ucp.by/areas-of-activity/konferentsii/>);

Possible forms of participating: **online** and **in absentia**.

In case of online participating the link for the connection to the conference will be sent to the participants during two weeks before the start of the conference.

Conference language: English.

The file containing the abstract should be named by the section number and author's name (for example: 2_Ivanov).

The Organizing Committee has the right to select the submitted abstracts with the following editing for inclusion in the collection of conference materials.

Materials that do not correspond to the scientific direction, design requirements and sent later than the deadline are not accepted.

Collection of conference materials is planning for publication during one month after the conference.

The author is personally responsible for no secret or restrictedly spread information is included in the abstract.

The participation in the conference is free of charge.

SECTIONS OF THE CONFERENCE

Section 1. Structure, methods and forms of education and their evaluation.

Section 2. Education in the field of fire prevention and firefighter training.

Section 3. Innovation, research and development in fire prevention and firefighter training.

REQUIREMENTS FOR THE ABSTRACTS OF THE REPORT

The report should be in *.doc, *.docx format.

Volume - up to 2 A4 pages, without page numbering, single line spacing, alignment - in width, font - Times New Roman, size - 12 pt, indent of the first line of the paragraph - 1.25 cm, margins - 20 mm from all sides. Figures and tables should be inserted into the text of the report.

Structure of the report:

UDC (top left);

the next line - **NAME OF THE REPORT** (CAPITAL letters, bold, centered);

the next line - *surname and initials of the author(s)* (italics, centered);

the next line - surname and initials, academic degree, academic title of supervisor (centered);

the next line - educational establishment (centered);

the next line - abstract (2-3 sentences) and keywords;

the next line - the text of the abstract (formulas and tables are placed in the text and are separated from the text by 1 line interval);

the next line - list of references (the word **REFERENCES** - centered, capital letters, bold type).

EXAMPLE

UDC 614.8 (063)

LIFE SAFETY PROVISION

Bordak S.S.

Tikhonov M.M., PhD in Technical Sciences, Associate Professor

University of Civil Protection

Abstract. The method of training rescuers-firefighters. The use of special simulators for practicing practical skills.

Keywords: rescuers, risk, firefighters, fire.

Ensuring the security of the individual, society, state is the most important priority of the next decades, which has become one of the main goals of the strategy of the existence of civilization in modern and predictable conditions [1].
